To: Prospective Employer of Ms. Robin F. Creer - Treadway:

Please accept this letter as a character and professional reference for Robin.

I have known her for well over twenty years, when she was a little girl and I had the opportunity to watch her grow and bloom into such a successful powerhouse of positive energy and endeavors!

She was a diligent young lady, graduated from high school and began college at the age of sixteen while living with her parents in St. Louis, Missouri. Her mom used to tell me that for Robin's enjoyment, she would study math books because she wanted to teach math. From that point she took advantage of business clerical technology, while simultaneously going to high school. She was so fast with typing, that she walked into a position in Columbus, Ohio as the Office Administrator and assistant to the Job Corps Project Director. She handled day-to-day duties, payroll, time-sheets, Counselor goals and the use of Excel, Word, Power Point and HR duties in the busy office.

From that position, she moved up to Admissions Counselor Leader, where she was in charge of over eight counselors, all with monthly goal requirements. While doing that work full time and beyond, this diligent single mother (at the time) was driving over 70 miles each way, 2-3 times a week to earn a Bachelor Degree. Part-time she free-lanced to tutor children and college students with math. It didn't stop there; she continued with all of the duties at work and home, to earn a Bachelor Degree from Central State University, graduating Cum Laude!

After leaving Job Corps, she opened up a child care business in her home which grew so rapidly, that she opened her own child care center, My Second Home Early Learning Center. She was responsible for up to 100 children's care and learning and handled her own staff of over 15 people. I just get so amazed thinking of the one person's achievements.

Now, after selling her child care business for a huge sum, she has moved to Florida with her husband and children, purchased rental property and still wants to get into educating others.

She is not just a dreamer. She works HARD to make them her reality. She works to stay upbeat, interested only in positive choices and remaining pro-active.

Your company or organization could only benefit by having her on your team.

Sincerely

 (signed with computer)

Lisa M. Lewis
